

Our Thank You Poem

'Not another survey!' we hear the Island cry,
'I've completed 3 this week so far, they're really rather dry.
I personally take no offense to midgies in the morning,
Or hoolies in the summer, the rain can keep on pouring.'

'I really like the whirring of an early fishing boat,
And it isn't all that often that I come across a stoat,
However, come to think of it, now that it's been mentioned,
There has been one thing on my mind causing some contention.....'

It is a pretty perfect life, spending time on Hoy,
The scenery, the friendly folk, the smiles that bring joy.
But the Island told us what they felt would make Hoy even better,
So we thought we would respond and distribute a newsletter...

Thank you to all of you for your contributions,
For well-constructed responses, and thoughts towards solutions.
For efforts made to fill in surveys on paper or online,
For having us at North Walls School, we had a lovely time.

Please be assured of our absolute commitment,
To give consideration to every bit of your engagement.
115 contributions have so far been received,
A wonderful response from you, we're really rather pleased.

So be sure to keep an eye out for community events,
We hope to hold one very soon to feedback survey content.
A final word of gratitude, where do we even start?
A very genuine THANK YOU from the bottom of our hearts.
