EXERCISE 'GEO' - OPERATION INSTRUCTIONS

INTENTION:

This afternoon you will be engaged on an exercise across WEE FEA hill. The intention of this exercise is to provide:

1. Training in the use of a Global Positioning System (GPS) for navigation
2. An introduction to map making and co-ordinate plotting
3. An introduction to the World War Two archaeology of Hoy

METHOD:

1. Identify your current position on the map using the GPS
2. Identify the approximate location of the next objective on the map
3. As a team, use the map to determine a safe route to the next objective. Select waypoints to help you to navigate to the objective
4. As a team, proceed on foot to the next objective using the map and GPS to accurately and safely navigate your way

OBJECTIVES:

1. A cache box is located at each of your objectives containing further instructions
2. Each box will be well hidden. Use the GPS to get as close as you can and then look carefully for the cache box
3. No boxes are located inside buildings or hazardous areas so DO NOT ENTER BUILDINGS or PLACES THAT LOOK DANGEROUS.

YOUR NEXT OBJECTIVE IS:

**ND 29397,94475**

OBJECTIVE CLUE:

*If you had to turn off the flow and inspect the pipe this is where you would go.*
